## DEPARTMENT OF FAMILY AND CHILDREN SERVICES (DFCS)

The Department of Human Resources helps many families afford childcare through the Childcare and Parent Services (CAPS) program. The local Department of Family and Children Services (DFCS) has child care workers that meet with families who apply for the CAPS program. The childcare workers determine if the families meet the eligibility requirements. If the family is eligible, then the workers can help them find and arrange for childcare.

To be eligible for the CAPS program, the parent(s) or responsible person(s) in the family must work, attend a job-training program, or attend GED or high school classes. Some adults may be eligible for CAPS while they are looking for a job. Families that qualify have limited incomes. The income that a family can earn and qualify for CAPS is based on the number of people in the family.

To apply for CAPS, call or visit your county DFCS office to make an appointment with the childcare worker. When you make the appointment, the worker will tell you the things you need to bring to the meeting. For example, you will need to bring social security cards for yourself and the children and pay stubs that indicate how many hours you work and how much you make.
